

# No Basis for Positive

- A. Positivity criteria not met
  - B. Lab errors – sample mislabeled
  - C. Specimen contaminated
  - D. Testing unreliable
- Doesn't make sense
    - ◆ Samples before and after okay
    - ◆ No evidence episodic testosterone works

Floyd Landis

ABC Slide Show

2

We have identified dozens of problems with Floyd Landis's allegedly positive doping test.

What we'll show here are some of the most important and easily understood basic problems.
